

Overview

Precise ID is offered by Experian as a report to identify an individual and to prevent fraud. They offer two products to this end. The score product gives a score result for specific information and how it matches up against their database. The KIQ product sends questions for the consumer to answer. The resulting report will determine how many were correct. The consumer will have about 15 minutes to answer these questions before the timer expires.

How to Order a Precise ID

From the main screen on Client-Side hit *Fraud Detection > Order Precise ID*.

Precise ID Cancel

Product: PRECISE ID SCORE Reference#

Pay by credit card

Order

1. **Select which product to order.** The differences between Score and KID are outlined in the introduction.
2. **Fill in the following information on the order screen.**
 - o First Name
 - o Last Name
 - o SSN
 - o Current Address (All of the appropriate fields)
 - o Fields designated with the green letter R are required fields. The rest of the consumer information is optional, but we recommend to fill out as much information as possible.
3. **Check the checkbox next to the *Pay by credit card* if you would like to pay the credit report with a credit card.** If you are required to pay by credit card, this box will automatically be checked and cannot be unchecked.
4. **Click on the *Order* button to place the Precise ID order.** If you get any warnings, please correct them and try to order again. You may get a warning screen indicating that a Precise ID already exists for the consumer. Please see the Duplicate Detection section for more details.
